

Expedited form to "Petition to Substitute"
the CAS Lab Graduation Requirement
with an approved science course

Instructions: Some student who need to complete the CAS lab requirement have extenuating circumstances to justify the use of alternative GER/UCORE science courses to substitute and fulfill the requirement. The expedited form is to be used in instances when:

1. Student has previously taken sciences courses that could fulfill the requirement.
2. Student has/will complete 10 credits of UCORE sciences with one lab (must have at least one [BSCI] and one [PSCI]).

Please list preferred course(s) to be used as substitutions or a list of all UCORE sciences courses completed or in progress. No additional documentation needs to be attached to the expedited petition. For questions, please contact Anna Chow, CAS Director of Advising, at (509) 335-8731, ycho@wsu.edu. Forward completed petitions via email or send to M/S 2421.
