

General Studies: Science

College of Arts and Sciences

Degree Options

Bachelor of Science

General Studies—Biological Sciences

General Studies—Mathematics

General Studies—Physical Sciences

Student Clubs of Interest

Chemistry Club

Physics and Astronomy Club

Zoology Club

Raptor Club and Rehabilitation Program

Pre-Health Professions:

Minority Association of Pre-Health Students (MAPS)

Pre-Dental Club

Pre-Health Club

Pre-Nursing Club: Rho Nu

Pre-Pharmacy Club

Pre-Physician Assistant Club

Pre-PT/OT Club

Pre-Vet Club (AKA Organization of Future Veterinarians)

Keys to Degree

- General studies degrees are for students who have interests that extend across traditional disciplinary boundaries and for students who cannot meet the degree requirements of disciplinary majors.
- General studies degree options allow students to play a major role in determining a curriculum of study.
- Each option has two plans for study: Plan A and Plan B.
- Plan A programs of study have two primary concentrations and require 24 semester credits in a primary concentration and 15 semester credits in a secondary concentration.
- Plan B programs of study have three related areas of concentration and require at least nine semester credits in each area of concentration.

Career Options

Medical and dental

Careers that fit the specialty programs created by students

Certification Requirements

24 completed semester credits

2.0 minimum grade point average

Suggested Classes for Freshmen

Two science classes or one science and one math, plus two non-science classes each semester

Suggested Classes for Transfer Students

Biology or physical sciences or mathematics/statistics courses and electives

Math Requirement

Determined by program of study.

Core Courses

No core requirements

Students must plan a program in consultation with an advisor
