Degree Options
Bachelor of Science
General Studies—Biological Sciences
General Studies—Mathematics
General Studies—Physical Sciences

Student Clubs of Interest
Chemistry Club
Physics and Astronomy Club
Zoology Club
Raptor Club and Rehabilitation Program
Pre-Health Professions:
Minority Association of Pre-Health Students (MAPS)
Pre-Dental Club
Pre-Health Club
Pre-Nursing Club: Rho Nu
Pre-Pharmacy Club
Pre-Physician Assistant Club
Pre-PT/OT Club
Pre-Vet Club (AKA Organization of Future Veterinarians)

Keys to Degree
• General studies degrees are for students who have interests that extend across traditional disciplinary boundaries and for students who cannot meet the degree requirements of disciplinary majors.
• General studies degree options allow students to play a major role in determining a curriculum of study.
• Each option has two plans for study: Plan A and Plan B.
• Plan A programs of study have two primary concentrations and require 24 semester credits in a primary concentration and 15 semester credits in a secondary concentration.
• Plan B programs of study have three related areas of concentration and require at least nine semester credits in each area of concentration.

Career Options
Medical and dental
Careers that fit the specialty programs created by students

Certification Requirements
24 completed semester credits
2.0 minimum grade point average

Suggested Classes for Freshmen
Two science classes or one science and one math, plus two non-science classes each semester

Suggested Classes for Transfer Students
Biology or physical sciences or mathematics/statistics courses and electives

Math Requirement
Determined by program of study.

Core Courses
No core requirements
Students must plan a program in consultation with an advisor
