

Psychology

College of Arts and Sciences

Degree Options

Bachelor of Science in Psychology

Minors

Psychology

Program Strengths

Students can structure their training in select specialized areas (these are not majors or degrees)

- Biological Psychology/Neuroscience
- Child Development
- Clinical Neuropsychology
- General Clinical Psychology
- Learning and Cognition
- Social psychology

Various undergraduate courses incorporate service learning as part of the course requirements. Service learning provides opportunity for hands-on, experiential learning.

Undergraduate research opportunities:

- Participate in research under the direction of psychology faculty by enrolling in Psych 498 or 499
- Apply for department research grants to support independent research under the direction of psychology faculty
- Participate in the Department of Psychology Undergraduate Research Symposium, an opportunity for original research to be presented to the public

Student Clubs

Psychology Club

Psi Chi, a national honor society
