Degree Options
Bachelor of Science in Psychology

Minors
Psychology

Program Strengths
• Students can structure their training in select specialized areas (these are not majors or degrees)
• Biological Psychology/Neuroscience
• Child Development
• Clinical Neuropsychology
• General Clinical Psychology
• Learning and Cognition
• Social psychology

Various undergraduate courses incorporate service learning as part of the course requirements. Service learning provides opportunity for hands-on, experiential learning.

Undergraduate research opportunities:
• Participate in research under the direction of psychology faculty by enrolling in Psych 498 or 499
• Apply for department research and travel grants to support independent research and conference attendance under the direction of psychology faculty
• Participate in the Department of Psychology Undergraduate Research Symposium, an opportunity for original research to be presented to the public

Student Clubs
• Psych Squared
• Psi Chi, a national honor society

Admission to the Major Requirements
A student may be admitted to the Psychology major after completion of 30 credits, PSYCH 311 with a C- or better, and a cumulative GPA of 2.5 or better.
