**# Template downloads:** 1146  
**Percentage complete:** **22%**

**Note: At the end of the course, 43% of respondents said they overestimated their pre-course resume writing abilities.**

**A RANDOM SAMPLE OF FEEDBACK FROM THE SURVEYS:**

Very helpful with a lot of good information.

I had never been instructed on how to write a resume, but just assumed what a good one looks like (keywords, numbers). This course gave me more knowledge on how to improve, and I can give my peers this resource as well.

The training on writing stronger sentences was very useful. I found my self writing sentences that had no end goal.

The added value using numbers and action verbs has improved my resume immensely.

I have completely changed the layout and even content!!

Detailed training that helps me tailor my resume to a specific job application.

Quantifying statements about myself has improved in large magnitudes

The entire course was extremely helpful.

I never thought of adding ethos to create more high impact sentences.

Adding the professional summary was something I would have never thought about doing myself, so that was helpful

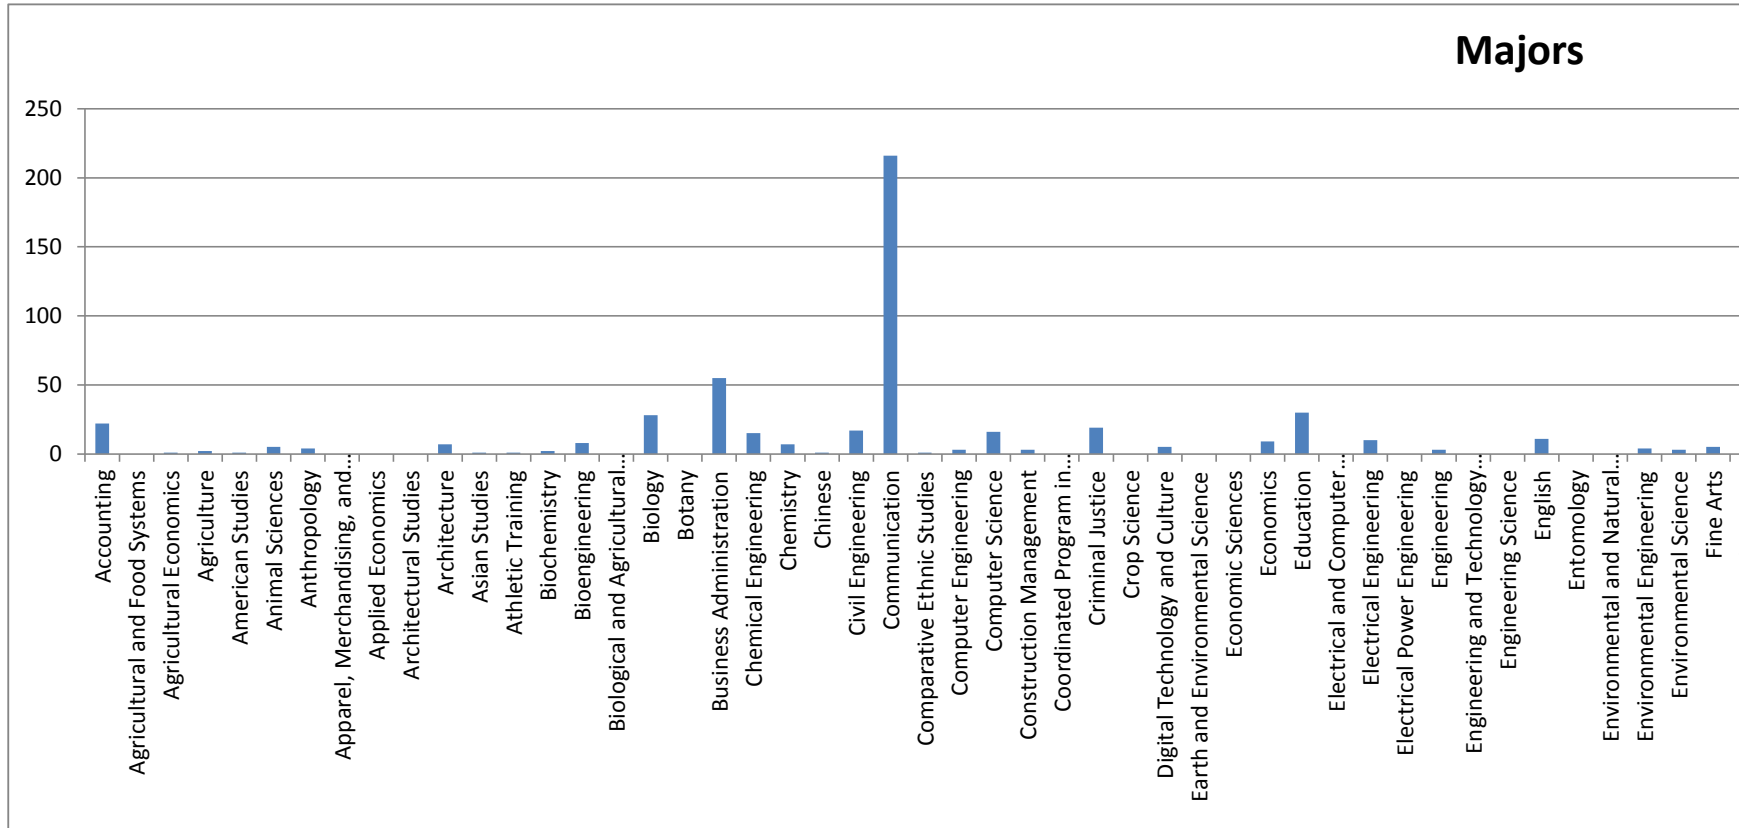

A great resume not only based on a person's skills, it's more than that!

This covered so many important things that I needed answers to. So, it was great.

I can't think of any improvements, I found it very informative and helpful.

There is nothing that can be improved from this. Everything was amazing!

I have learned so much. It has been very easy to navigate through this website and follow along with the templates
