

Psychology

College of Arts and Sciences

Degree Options

Bachelor of Science in Psychology

Minors

Psychology

Program Strengths

- Students can structure their training in select specialized areas (these are not majors or degrees)
- Biological Psychology/Neuroscience
- Child Development
- Clinical Neuropsychology
- General Clinical Psychology
- Learning and Cognition
- Social psychology

Various undergraduate courses incorporate service learning as part of the course requirements. Service learning provides opportunity for hands-on, experiential learning.

Undergraduate research opportunities:

- Participate in research under the direction of psychology faculty by enrolling in Psych 498 or 499
- Apply for department research and travel grants to support independent research and conference attendance under the direction of psychology faculty
- Participate in the Department of Psychology Undergraduate Research Symposium, an opportunity for original research to be presented to the public

Student Clubs

- Psych Squared
- Psi Chi, a national honor society

Admission to the Major Requirements

A student may be admitted to the Psychology major after completion of 30 credits, PSYCH 311 with a C- or better, and a cumulative GPA of 2.5 or better.
